## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Saneshige et al. (JP406022519A).

Saneshige et al. disclose a stepping motor comprising: a rotor including a permanent magnet (5) and magnetized in multipoles; a plurality of coils (12) arranged at a surrounding of the rotor and wound around a radius direction of the rotor; a cylindrical supporter (13) for supporting the plurality of coils including an insulating film having a flexibility; and a casing (1) for surrounding the permanent magnet, the plurality of coils and the supporter fixed to the supporter.

Regarding claims 2-4, it is noted that Saneshige et al. disclose all the limitations of the claimed invention.

Regarding claims 8-10, the method therein is given by the apparatus of Saneshige et al.

### ***Allowable Subject Matter***

3. Claims 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
